 Variant first made after 1/1/08 (\$100 fee) _____

Disc Specifications Claimed

Outside diameter (cm) _____
 Inside rim diameter (cm) _____
 Height (cm) _____
 Rim depth (cm) _____
 Rim thickness (cm) _____
 Flight plate thickness (cm) _____
 Flight plate to lower rim plane distance (cm) _____
 Flexibility (kg) _____
 Rim configuration rating _____
 Expected Weight Range (g) _____

Enclosed are three samples of the above named disc model or variant. I have sent a \$300 check to PDGA Headquarters (IDGC - Wildwood Park, 3828 Dogwood Lane, Appling, GA 30802-3012, ph.#: (706)261-6342, bgraham@pdga.com) for PDGA testing of each new model. Testing fees are assessed at half the rate for manufacturers in the first calendar year they produce discs for PDGA approval. In the case of a disc variant (that is, one with a new name that retains its original name as an element within its new name; for example, the *Ferret*, an approved disc, is changed and renamed the *Ferret Lite*), I have sent a \$100 check to PDGA HQ for the testing fee (only required for variants first produced after January 1, 2008). I understand that if the fee is not received by PDGA HQ, that the approval is not finalized. As representative of the manufacturer named above, I attest that at least 500 discs will be made available commercially upon PDGA approval. I understand that this disc will not be permitted in PDGA World Championships (both professional and amateur) unless it is approved at least 30 days prior to the start of these events.

This disc will be legal for all other PDGA-sanctioned events once it is approved and the testing fee is paid. If the disc fails to pass one or more of the PDGA tests, I understand that a new certification form and testing fee will be required if and when it is resubmitted for testing by the Technical Standards Committee. This certification form and three discs are to be mailed to: Jeff Homburg, PDGA Technical Standards Committee Chair, 4502 East 16th Street, Tucson, AZ 85711; (520)-571-7787(h), 721-4309(w), jhomburg@msn.com.)

* The manufacturer representative is encouraged to complete the above specifications to inform the TSC of measurements claimed, but there is no requirement to do so.

 Date ___/___/___

PDGA Section

(Review of submissions for PDGA approval is typically completed within 15 days. However, if there are issues that delay approval, the Technical Standards Committee (TSC) Chair will inform the manufacturer representative of the status of the submission no later than 15 days after receipt of the test samples. At their monthly meetings, the PDGA Board formally certifies submissions that have been approved by the TSC during the previous month.)

Date Received _____

Sample 1:

Outside diameter (cm) _____
 Inside rim diameter (cm) _____
 Height (cm) _____
 Rim depth (cm) _____
 Rim thickness (cm) _____
 Flight plate thickness (cm) _____
 Flight plate to lower rim plane distance (cm) _____
 Flexibility (kg) _____

Sample 2:

Outside diameter (cm) _____
 Inside rim diameter (cm) _____
 Height (cm) _____
 Rim depth (cm) _____
 Rim thickness (cm) _____
 Flight plate thickness (cm) _____
 Flight plate to lower rim plane distance (cm) _____
 Flexibility (kg) _____

Sample 3:

Outside diameter (cm) _____
 Inside rim diameter (cm) _____
 Height (cm) _____
 Rim depth (cm) _____
 Rim thickness (cm) _____
 Flight plate thickness (cm) _____
 Flight plate to lower rim plane distance (cm) _____
 Flexibility (kg) _____

Average Outside Diameter (cm) _____
 Average Rim Depth (cm) _____
 Maximum Weight Allowed (g) _____
 Median flexibility rating (kg) _____
 Rim Configuration rating _____

I, _____, representing the PDGA Technical Standards Committee, certify that the _____ (name of disc):

(1) ___ has been tested and sent to the PDGA Board on ___/___/___ to be certified for PDGA competition at the next meeting of the Board.

(2) ___ does not meet PDGA standards for PDGA competition because:

Certification No. _____
 Certifier's Signature _____
 Certification Date ___/___/___
